

Christmas is time for our giving and caring
Families gather and friends draw near
Now is the season for loving and sharing
In all the fun at this time of year
Yet as we feast there are millions go hungry
Through every day countless lives are laid bare
Peace and goodwill are proclaimed for all nations
It's time to show that we care

*We can make a difference in this world
We can make a difference in this world
If we believe it and go out and do it
We can make a difference in this world*

Christmas the day is just like any other
For many people just struggling to live
Sometimes it feels like there's too many problems
What should we do and to whom should we give
But for some people we can make a difference
Bringing a hope into days of despair
God has commanded to love one another
Actions to show that we care
